## INTRODUCTION

Starbuy is a cryptocurrency been fully run and based on blockchain.

We are in a decentralized world where cryptocurrency is not being controlled by any legal authority or government body, we are pleased to begin creating a currency which get its support from a large community throughout the world. We understand that things are not equal, a lot of aged women are unemployed and a lot of kids have become orphans, we hope to bridge the gap by giving hope to this set of people again through our STARBUY foundation. We understand the power of togetherness and we believe collective strengths is better and greater in building an high value digital currency in the blockchain industry.

## BACKGROUND

Cryptocurrency has gained more recognition in after the evolution of Bitcoin in 2009, ever since then cryptocurrency has been serving as a medium of exchange which made it possible for different individual or organization to exchange values through a decentralized platform. This is a means to create global wealth by investing in the right coin, this birthed the idea of creating a promising token which is called Starbuy with the initial STR.

## FEATURES

### DEPOSIT

You can deposit fiat into your wallet through bank transfer, Visa, MasterCard or American Express Cards. Also, you can deposit cryptocurrency to your wallet by copying your contact wallet address and send coin directly from another supported platform.

### CONVERSION

We have made our interface easy to use for experts and even novice to easily convert their cryptocurrency to other coins and the fiat currency to digital assets.

### SPOT TRADING

This platform allows you to buy cryptocurrency and leave for a period of time without using any leverage, this earn lesser return compare to future trading . You can invest in BTC, ETH, STR, DOGE or any coin of your choice and sell off any time you wish.

### P2P TRADING

Connect with other starbuy users, buy and sell your cryptocurrency at the agreed price between the parties involved

### FUTURES TRADING

Make use of leverage to multiply your input, you can either buy or sell. Be aware that futures trading comes with high risk and the reward compensate the risk as well.

### MARGIN TRADING

Starbuy gives you privilege to invest in cryptocurrency more than the amount you have in your wallet.

### STARBUY FOUNDATION

We focus on establishing a company that will make provision for old unemployed women and orphaned kids.
